Sebastian "The Sea Bass" Mancipe is both a student and a teacher. As a student, he is able to excel due to his strong will to learn and his exceptional listening skills. As he advances in Kyokushin, as a young man without sight facing the same standards and expectations of his fellow students, he teaches us that the line between what we consider "normal" and "handicapped" is an insignificant barrier. Sebastian teaches us about mental strength and character. And "The Chilean Sea Bass" is a character.
